Twinson Cleaner

Instructions for use

General

- Goal :
 - *We can provide/sell a Twinson cleaning product to our customers, which has been intensively tested and proved. The endconsumer can use this product to maintain his terrace and clean it at least 2 times a year. The product will be sold under “Deceuninck/Inoutic Twinson cleaner” brand and will be on stock.*
- Input from plants :
 - *After testing several products, we believe that this product has the best results so far. Therefore we would like you to test the product on a very dirty terrace, so that you can send us pictures (before/during/after cleaning) and give us your remarks. Based on your remarks (tested on different geographical locations) we will decide whether we will take this product into our product range or not.*
- Application of the product :
 - *Removes mildew stains, dirt, moss, food debris, grease... from your Twinson terrace.*

Instructions for use

- Humidify the surface with water. Use a hose – no high pressure cleaner.

- Apply the ready-to-use Twinson cleaner using a wide (household) brush or similar. The product can be diluted with water at a ratio of 1:2, it depends on how dirty your terrace is.

Instructions for use

- Scrub the treated area with a scrubbing brush working length-wise along the wood until it is clean. The product will start foaming. For stubborn stains, repeat the treatment.

- Rinse thoroughly until all the foam has disappeared.

Instructions for use

- Allow the surface to dry completely. (+/- 30 min. at a temperature of 20°C and a good ventilation)

Instructions for use

- Usage : +/- 15m² per liter
- Do not allow the product to freeze. Application of the product below 10°C is not recommended.
